# iTFE WHS ACADEMY

At iTFE WHS Training Academy, we specialise in creating safer, smarter workplaces. Our tailored training programs and consultancy services are designed to meet your unique needs, ensuring compliance and enhancing productivity.

## COURSES AND SERVICES

- **Full Qualifications:** In-depth WHS knowledge and skills.
- **Short Courses:** Focused training on specific areas.
- **Regulator-Approved Courses:** Meet industry standards.
- **Consultancy Services:** Audits, policy development, and SWMS.

## TRAINING AND QUALIFICATIONS

**Introductory (Statutory) Phase** - non accredited state-based requirements ranging from full day to 5-day training courses

- Being a Health and Safety Representative
- Workplace First Aid Officer
- Workplace Mental Health First Aid Officer
- Workplace Emergency Warden

**Developmental Phase** - Short courses can be accredited or non-accredited, face to face or online

- **Safety Leader** - Discover the intersection of civil and criminal law in safety. Dive into Due Diligence, Safety Supervision, Behavioral Safety Observations, and health and safety monitoring.
- **Safety Auditor** - Learn the difference between process and practice in health and safety management. Master compliance and conformance to laws and standards, from inspections to controls.
- **Incident Investigator** - Build a robust evidence portfolio. Focus on place, plant, part, people, and paper to enhance your forensic investigation skills.
- **Injury Management** - Apply DRSABCD for site prevention, medical management, and worker engagement. Support injury management with return-to-work plans and strategic claims management.
- **Emergency Management** - Respond to fires, armed hold-ups, hazardous substance releases, and motor vehicle accidents with timely and effective action.
- **Psychological Health Support** - Understand current legislation and apply risk management. Support residual risks through wellbeing partnerships and link whistleblowing policies to reporting and monitoring.

**Nationally Accredited Qualifications**

- Certificate IV in Work Health and Safety
