

BSB41419

Certificate IV in Work Health and Safety

All workplaces encounter risks with work health and safety that, if managed effectively, will promote a more productive and safer work environment. The qualification provides training to help you understand the work, health, and safety laws applicable to your workplace so that you can better manage risk, facilitate training and awareness, and contribute to the work health and safety in your workplace. Training is also provided to enhance your communication skills at an individual and organisational level.

Through completing this program, you will be equipped with the knowledge and skills you need to cultivate a culture of health and safety in your workplace.

The units in this qualification have been intentionally designed into the 5 themes below to provide a coherent learning experience:

- WHS Compliance & Consultation
- WHS & Managing People
- Business Leadership & Communication
- WHS Management Systems
- Managing Hazardous Material

Course Overview

- Online learning materials complemented by regular workshops
- Coaching and support available
- Regular engagement with the trainer
- Delivered over 8-12 months

Delivery Options
